

To Become a Partner:

Mail or fax a completed form (2 pages) to:
U.S. EPA Green Power Partnership
1200 Pennsylvania Ave., NW (6202J)
Washington, DC 20460
Fax: (202) 343-2208

Letter of Intent

The U.S. EPA's Green Power Partnership is a voluntary program that seeks to reduce the environmental impact of electricity generation by building demand for green power—a cleaner, renewable and reliable alternative to conventional electricity generation. Partners pledge to replace a specific portion of electrical load with green power within one year. EPA provides Partners with procurement and communications assistance.

Eligible Renewable Resources

Eligible renewable energy resources include solar, wind, geothermal, biogas, eligible biomass and eligible hydro. These resources must be incremental to what would have been supplied to a consumer otherwise.

Minimum Commitment

Commitments are proportional to Partners' electricity consumption.

Annual Electricity Consumption (kWh)	Minimum Commitment
--------------------------------------	--------------------

>100,000,000	2% of load
<100,000,000	3% of load
<10,000,000	6% of load
<1,000,000	10% of load
<100,000	15% of load

Half of the minimum commitment must come from "new" renewable energy resources (i.e., installed capacity post January 1, 1997*).

Green Power Procurement

Partner commitments may be met with delivered electricity products (block or blended), renewable energy certificates, or on-site power generation. Only the renewable portion of blended products will count towards Partnership commitments.

With this letter

(organization) joins EPA's Green Power Partnership. To meet the Partnership's minimum commitment, we are enrolling:

(identify the entity/entities joining the Partnership, e.g., name of facility, operating division, utility service territory, state, or entire organization).

We are making a commitment to acquire renewable energy resources in the amount of _____ kWh (or MWh) during the coming year.

Such renewable energy resources will be consistent with the Partnership's eligible renewable resources. Last year or over the last 12 months, the total load of the participating entity was _____ kWh (or MWh).

The Partner Agrees to:

1. Designate an organizational liaison.
2. Implement, within one year of signing this voluntary agreement, a green power purchase at facilities in the United States that meets or exceeds the minimum green power commitment.
3. Provide information on green power consumption as it relates to Partnership commitments annually.

EPA will:

1. Designate a Partnership liaison.
2. Support the Partner with EPA resources and tools.
3. Provide the Partner with public recognition for their commitment.

General Terms

1. Either party can terminate this agreement at any time, with no prior notification or penalties and no further obligation.
2. EPA reserves the right to periodically revise program eligibility requirements.
3. EPA will honor requests to keep the Partner's energy use confidential.
4. The Partner agrees to follow Green Power Partnership logo usage guidelines.
5. The Partner agrees that the activities it undertakes connected with this voluntary agreement are not intended to provide services to the federal government and that the Partner will not seek compensation from a federal agency.
6. The Partner agrees that it will not claim or imply that its participation in the Partnership constitutes EPA approval or endorsement of anything other than the commitment to the Partnership.

Additional Partner Information:

Are you already using green power? No Yes *(If yes, please let us know the following information)*

What is the percentage of new renewables: _____%

How are you getting the green power?

- ☐ Delivered electricity product
- ☐ Renewable energy credits
- ☐ On-site generation

What mix of renewable energy sources are you using?

- % Solar
- % Wind
- % Geothermal
- % Biogas
- % Biomass
- % Hydro

The Green Power Partnership would like to link to your environment-related web page. If your organization has an environment-related Web page, please list it here:
